

NOTICE TO CALIFORNIA COMMERCIAL FISHERMEN AND PROCESSORS

2003 Federal Groundfish Management Measures that Affect Fishermen in Federal and State Waters¹ off California

LIMITED ENTRY²

TRAWL FISHERY

September - October

All Bottom Trawling Is Prohibited Within The Trawl Rockfish Conservation Area (RCA).

Oregon border south to 40° 10' N

The RCA is generally defined as the waters between 50 and 200 fathoms.

40° 10' south to 34° 27' N (Point Conception)

The RCA is generally defined as the waters between 60 and 200 fathoms.

34° 27' N south to Mexico border

The RCA is generally defined as the waters between 100 and 200 fathoms and inside 200 fathoms around islands.

The actual boundaries of the RCA are defined by a series of straight lines between "way points" for the 60, 100, and 200 management lines. The coordinates for the way points are available from the National Marine Fisheries Service (NMFS-SEA-03-13). **All trawl³ types may be used seaward of the RCA. Only small footrope and midwater trawl is permissible shoreward of the RCA. A vessel may have more than one type of trawl gear on board, but the most restrictive limit for any of the gear applies for that trip. A vessel may not have limited entry bottom trawl gear on board if that vessel also has trawl gear on board that is permitted for use within a RCA.** Vessels may transit the RCA with or without groundfish onboard provided the gear is stowed (see federal register for the definition of stowed).

LANDINGS ARE RESTRICTED TO THE SPECIES OR SPECIES GROUPS LISTED BELOW!

ROCKFISH

LONGSPINE THORNYHEAD

- **North of 40° 10' N:** 11,500 pounds during the 2-month cumulative period.
 - ✓ No more than 5,000 pounds during the 2-month cumulative period, if small footrope is used at any time, north or south, during the cumulative period.
- **South of 40° 10' N:** 11,500 pounds during the 2-month cumulative period.

SHORTSPINE THORNYHEAD

- **North of 40° 10' N:** 2,400 pounds during the 2-month cumulative period.
 - ✓ No more than 1,000 pounds during the 2-month cumulative period, if small footrope is used at any time, north or south, during the cumulative period.
- **South of 40° 10' N:** 2,400 pounds during the 2-month cumulative period.

MINOR SLOPE

- **North of 38° N:** 1,800 pounds during the 2-month cumulative period.
- **South 38° N:** 30,000 pounds during the 2-month cumulative period.

SPLITNOSE

- **40° 10' N to 38° N:** 1,800 pounds during the 2-month cumulative period.
- **South 38° N:** 30,000 pounds during the 2-month cumulative period.

PACIFIC OCEAN PERCH (POP)

- **North of 40° 10' N:** 3,000 pounds during the 2-month cumulative period.

Small footrope or mid-water trawl only

CANARY

- 100 pounds per month.

YELLOWTAIL

- **North of 40° 10' N:** With flatfish no more than 33 % of the flatfish (other than arrowtooth flounder) on board plus an amount equal to 10 % of the arrowtooth not to exceed 10,000 pounds during the 2-month cumulative period. Without flatfish 1,000 pounds per month.

MINOR SHELF, WIDOW and CHILIPEPPER

- **North of 40° 10' N:** 1,000 pounds per month.
 - ✓ No more than 200 pounds of which may be yelloweye rockfish.
- **South of 40° 10' N:** 300 pounds per month.

MINOR NEARSHORE⁵

See Digest of CA Commercial Fish Laws for permit requirements, size limits, and state trip limits

- 300 pounds per month.

FLATFISH

DOVER SOLE

North of 40° 10' N:

- No more than 34,000 pounds during the 2-month cumulative period.
- No more than 12,500 pounds during the 2-month cumulative period, if small footrope is used at any time, north or south, during the cumulative period.

South of 40° 10' N:

- No more than 34,000 pounds during the 2-month cumulative period.

OTHER FLATFISH (including petrale & rex sole)

North of 40° 10' N:

- 100,000 pounds during the 2-month cumulative period.
 - ✓ No more than 30,000 pounds of which may be petrale sole.
- If small footrope is used at any time, north or south, during the cumulative period, 20,000 pounds during the 2-month cumulative period.
 - ✓ No more than 10,000 pounds of which may be petrale sole.

South of 40° 10' N:

- 70,000 pounds during the 2-month cumulative period.
 - ✓ No more than 20,000 pounds of which may be petrale sole.

ARROWTOOTH FLOUNDER

North of 40° 10' N:

- 200,000 pounds during the 2-month cumulative period, 7,500 pounds per trip.
- If small footrope is used at any time, north or south, during the cumulative period, 5,000 pounds during the 2-month cumulative period.

South of 40° 10' N:

- 1,000 pounds during the 2-month cumulative period.

ROUNDFISH

SABLEFISH⁶

North of 40° 10' N:

- No more than 9,000 pounds during the 2-month cumulative period.
- No more than 3,000 pounds during the 2-month cumulative period, if small footrope is used at any time, north or south, during the cumulative period.

South of 40° 10' N:

- 9,000 pounds during the 2-month cumulative period.

PACIFIC WHITING

- No more than 10,000 pounds per trip.

Small footrope trawl or mid-water trawl only

LINGCOD

- No more than 800 pounds during the 2-month cumulative period with a 24-inch minimum size limit.

OTHER GROUNDFISH¹¹

Not limited

NOTES: 1. California adopts federal groundfish regulations (California Code of Regulations, Title 14, Section 189, Commercial Groundfish Fishing)

2. A vessel with a limited entry permit may fish in the open access fishery using a gear other than the endorsement gear; however, the vessel will be held to limited entry limits even if the open access limit is larger. If the open access limit is smaller than the limited entry limit, the vessel cannot land more than the open access limit using non-endorsed gear; the remainder of the limited entry limit may be taken with the endorsed gear.

3. Large footrope (greater than 8" in diameter); Small footrope (8" or less in diameter).

4. The 2-month fishing period are: January-February; March-April; May-June; July-August; September-October; November-December.

5. State Nearshore Fishery Permit and/or Deeper Nearshore Species Fishery Permit Required.

6. Sablefish trip limits are in round weight equivalent. California allows dressed weight to be reported on landing receipts. If so reported, the receipts must be marked with the code for "dressed head off" (02) in the condition column. The equivalent round weight is computed by multiplying 1.6 times the dressed weight.

7. Groundfish species or species groups for which there is a trip limit, size limit, or OY (optimum yield) must be sorted prior to weighing and the weight reported separately on the Fish and Game receipt.

8. Landing receipts for groundfish must be maintained onboard the vessel during and for 15 days after the end of the cumulative limit period during which the landings occurred (63 FR 34606) (Fish & Game Code 8046.1).

9. Operating in areas with different trip limits. If a vessel takes and retains a groundfish species or species groups; a.) in an area where a more restrictive limit applies before fishing in an area where a more liberal limit or no limit applies; or b.) in an area where a more liberal or no limit applies and takes and retains, possesses or lands that species or species group in an area where a more restrictive limit applies; then the vessel is subject to the more restrictive limit for the period.

10. For a vessel in the "B" platoon, cumulative trip limit period begin on the 16th of the first month of a fishing period and end on the 15th of the first month of the following fishing period.

11. Other Groundfish: leopard and soupfin shark, spiny dogfish; big, California and longnose skate; ratfish; finescale codling; and grenadier.

If you have any questions about these regulations, please contact either:

Mike Fukushima, Eureka @ (707)441-5797, Dave Thomas, Belmont @ (510)581-7358, Brenda Erwin, Belmont @ (650)631-6740

NOTICE TO CALIFORNIA COMMERCIAL FISHERMEN AND PROCESSORS

2003 Federal Groundfish Management Measures that Affect Fishermen in Federal and State Waters¹ off California

OPEN ACCESS

TRAWL FISHERY

September - October

RIDGEBACK & GOLDEN PRAWN, CA HALIBUT, AND SEA CUCUMBER BOTTOM TRAWLING Is Prohibited Within The Trawl Rockfish Conservation Area (RCA).

40° 10' south to 34° 27' N (Point Conception)

The RCA is generally defined as the waters between 60 and 200 fathoms.

34° 27' N south to Mexico border

The RCA is generally defined as the waters between 100 and 200 fathoms and inside 200 fathoms around islands.

The actual boundaries of the RCA are defined by a series of straight lines between "way points" for the 60, 100, and 200 management lines. The coordinates for the way points are available from the National Marine Fisheries Service (NMFS-SEA-03-13). All trawl³ may be used *seaward* of the RCA. **Only small footrope and midwater trawl is permissible shoreward of the RCA. A vessel may have more than one type of trawl gear on board, but the most restrictive limit for any of the gear applies for that trip. A vessel may not have limited entry bottom trawl gear on board if that vessel also has trawl gear on board that is permitted for use within a RCA.** Vessels may transit the RCA with or without groundfish onboard provided the gear is stowed (see federal register for the definition of stowed).

LANDINGS ARE RESTRICTED TO THE SPECIES OR SPECIES GROUPS LISTED BELOW!

- ❖ No more than 300 pounds total groundfish bycatch* per trip. **The following sub-limits and cumulative limits still apply in conjunction with the 300 pound total bycatch limit.**
 - Thornyheads: South of 34° 27' N only: 50 pound daily trip limit with a 2-month cumulative limit of 2,000 pounds.
 - Minor Shelf Rock, widow, chilipepper and yellowtail: No more than 200 pounds may be landed during the 2-month cumulative period.
 - Shallow¹⁰ Nearshore Rock: No more than **300** pounds may be landed during the 2-month cumulative period. See State Regulations for Nearshore Restrictions.
 - Deeper¹⁰ Nearshore Rock: No more than **300** pounds may be landed during the 2-month cumulative period. See State Regulations for Nearshore Restrictions.
 - Minor Slope: South of 38° N, 10,000 pounds may be landed during the 2-month cumulative period. North of 38° N, per trip no more than 25% of weight of sablefish landed.
 - Splitnose: South of 40° 10' N: No more than 200 pounds may be landed per month.
 - Flatfish: 3,000 pounds may be landed per month, no more than 300 pounds of which may be species other than Pacific sanddabs. CA Halibut fishery south of 38° 57' 30"N only: no more than 300 pounds of which may be species other than Pacific sanddabs, sand sole, starry flounder, rock sole, or curlfin sole.
 - Sablefish: North of 36° N, 300 lbs/day, or 1 landing per week of up to 800 lbs, not to exceed 3,200 lbs during the 2-month cumulative period and South of 36° N, 350 lbs/day, or 1 landing per week of up to 1050 lbs; no cumulative limit.
 - Lingcod: No more than 300 pounds may be landed per month; 24-inch minimum size limit.
 - CA scorpionfish¹⁰: **Closed.**
 - Other Groundfish¹¹ (sharks, skates, ratfish, morids, grenadier): No cumulative limit.

*Pounds of groundfish bycatch landed cannot exceed pounds of target species landed except spiny dogfish landings may exceed the amount of target species landed. Spiny dogfish are limited by the 300 pound per trip over all groundfish limit. Vessels participation in the CA Halibut fishery south of 38° 57' 30"N (only) are allowed to land up to 100 lb/day of groundfish without the ratio requirement, provided that at least one CA Halibut is landed.

PINK SHRIMP (April - October)

- ❖ 500 pounds groundfish bycatch per day, multiplied by the number of days of the fishing trip, but not to exceed 1,500 pounds per trip. The following sub-limits and cumulative limits still apply in conjunction with the above total bycatch limit.
 - Lingcod: 300 pounds per month, minimum size limit 24 inches.
 - Sablefish: 2,000 pounds per month.
 - Thornyhead, and canary & yelloweye rockfish: Closed.
- ❖ For vessels landing groundfish bycatch in the pink shrimp fishery and also operating in the limited entry or open access fisheries.
 - The vessel may retain the larger of the groundfish limits in effect for that same cumulative limit period, but cannot exceed the limit for each gear or fishery when operating in that fishery or with that gear.
 - The limits are not additive.
- ❖ Pounds of groundfish bycatch landed cannot exceed pounds of pink shrimp

.....
NOTES: 1. California adopts federal groundfish regulations (California Code of Regulations, Title 14, Section 189, Commercial Groundfish Fishing)

2. Pink shrimp trawl may be used in the RCA with excluders.

3. Large footrope (greater than 8" in diameter); Small footrope (8" or less in diameter).

4. The 2-month fishing period are: January-February; March-April; May-June; July-August; September-October; November-December.

5. DTS Complex – Dover sole, longspine and shortspine thornyheads, and trawl caught sablefish.

6. Sablefish trip limits are in round weight equivalent. California allows dressed weight to be reported on landing receipts. If so reported, the receipts must be marked with the code for "dressed head off" (02) in the condition column. The equivalent round weight is computed by multiplying 1.6 times the dressed weight.

7. Groundfish species or species groups for which there is a trip limit, size limit, or OY (optimum yield) must be sorted prior to weighing and the weight reported separately on the Fish and Game receipt.

8. Landing receipts for groundfish must be maintained onboard the vessel during and for 15 days after the end of the cumulative limit period during which the landings occurred (63 FR 34606) (Fish & Game Code 8046.1).

9. Operating in areas with different trip limits. If a vessel takes and retains a groundfish species or species groups; a.) in an area where a more restrictive limit applies before fishing in an area where a more liberal limit or no limit applies; or b.) in an area where a more liberal or no limit applies and takes and retains, possesses or lands that species or species group in an area where a more restrictive limit applies; then the vessel is subject to the more restrictive limit for the period.

10. State Nearshore Fishery Permit and/or Deeper Nearshore Species Fishery Permit Required.

11. Other Groundfish: leopard and soupfin shark, spiny dogfish; big, California and longnose skate; ratfish; finescale codling; and grenadier.

12. For a vessel in the "B" platoon, cumulative trip limit period begin on the 16th of the first month of a fishing period and end on the 15th of the first month of the following fishing period.
